Normal Maintenance:

Checked all pump stations and cleaned floats as needed.

Continued maintenance of outside grounds, equipment, and vehicles.

Removed influent primary grease from primary clarifiers and weirs on weekly basis.

Tom Koval from Koval Electric worked on the Murray Ave and Sage Road backup generators and Troy Belting worked on the Third Street pump station generator during the 27hr power outage.

Drained, inspected and repaired #2 primary tank cross collector and placed back in service.

Pumped out Suncrest Dr, Timber Dr and Mallards No. pump stations during the 27hr town wide power outage. Utilized Cam Gardner and Josh McCray from the Highway Dept. during this time also.

Bove Fuels topped off diesel fuel tanks at 3rd St, Mechanicville Rd. and the treatment plant for the backup generators.

Riberdy Contracting topped off the diesel tank at the Fonda Rd. pump station for backup generator. Troy Belting conducted annual servicing of plant and pump station back-up generators. We worked with Troy Belting and Emerick associates and figured out that both the plant pump station and the #2 rebuilt pump had problems which were giving us false over temp alarms. Called in outside panel maintenance company. The panel was fixed and the pump was removed so it could be taken apart and repaired.

The A-Team replaced floats at Drake Court pump station, replaced cutters on pump #2 at the Timber Drive pump station, pulled, inspected, and cleared debris for pump #1 at the Front St. pump station. The pump was then tested and put back into service.

The Councilman went on to read an update from Town Historian Russ Vandervoort.

Attended the Monthly meeting of the Saratoga County History Center in Ballston Spa.

Will be attending a Saratoga County 250 event in May. This will be on the Saratoga Battlefield and in the areas of Stillwater, Schuylerville, and Saratoga. Saratoga250 is part of the national observance of the upcoming 250th observance of our Declaration of Independence in 2027.

Preliminary plans call for reenactments of significant events leading up to the Declaration.

Waterford's event will likely be part of the reenactment of General Henry Knox's wintertime

march from Fort Ticonderoga to Boston with the cannons captured at Fort Ticonderoga. Fonda Road was a Colonial Military Route that Knox utilized to cross the Hudson River at Waterford. (Upper 3rd St, on Rts 4/32) While crossing, they lost one cannon, which was later recovered. It is hoped to reenact this, but not in the wintertime. The actual crossing was in February.

In April, I will be addressing the Lansingburgh Historical Museum at the Melville House on the Nolan Girls of Waterford. Also, in April, I will be at the Castleton Boat Club, speaking on historic boats of Waterford.

The House Family of Waterford. John House Sr. and his sons John Jr. and Dr. Samuel House. I was contacted by a family member who had wonderful info on Samuel, but little on the others. John Sr. and Jr. I knew about, but had very little on Samuel. I filled the requestor in with what I had. He was pleased with it and sent me a book on Dr. Sam.

Dr. Sam was an operating doctor trained in the 1840s. He was also a Presbyterian Minister. He was assigned as a missionary to Siam. He was there for three decades. Came home once. The trip takes about seven months. He returned to Siam. Among other things, he became friends with the King of Siam and taught him to speak and read English. Dr. Sam, from Waterford, attained Godlike status with the Siamese people. By the 1880s, he had returned to Waterford and lived out his days on Second St. It should be noted that John Jr., his brother, admittedly earned a good living off 11Sam's Heathens. It is never explained what John Jr. did for the heathens that earned him good fortune.

The Councilman reminded residents that with the bad weather being predicted for the next few days, the plows may be out and to be mindful of the parking regulations.

Committee on Public Safety, Emergency Services, and Liaison to Village
